

EKU825 – configuration tool Installation instructions

After start of SETUP.EXE a general reminder appears for shutting down all other applications. Confirm the message by pressing the OK button. Now shown window appears. Here you can change the installation path.

By clicking on the red marked button installation will be started.

Please note the installation path should not have more than 100 chars respectively should be displayed in full length in above window. Otherwise operating system can produce curios messages.

During progress of installation you should follow the system messages.

Setup program will create links in STARTMENU category PROGRAMME.
By this program can be started after successful installation.
